Cleanroom Mops
ClipperMop™ Series

TECHNICAL DATA SHEET

Description

Texwipe's ClipperMop™ is designed in two sizes to use any standard 9" x 9" or 12" x 12" cleanroom wipers.

The ClipperMop™ system may be used with dry, pre-wetted, sterile or non-sterile wipers.

The ClipperMop™ includes the Celcon® thermoplastic mop head with clips and a flexible polyester pad for better wiping efficiency. Each mop has four polyethylene clips tethered to the mop head with nylon fasteners. The clips are non-abrasive and do not release particles and fibers when securely attaching one or multiple wipers to the head.

The replaceable polyester foam pad ensures that the mop conforms to uneven surfaces.

Applications

- Cleaning ceilings, floors, walls, isolators, hoods and other confined areas
- Applying and removing solutions and disinfectants

Industries

Aerospace	Animal Laboratory	Biologics
Cleanroom Design/Build	Compounding Pharmacies	Data Storage
Facilities Maintenance	Industrial	Laboratory
Medical Device	Microelectronics	Pharmaceutical
Printing/Graphics	Semiconductor	USP <797> / USP <800>

Features & Benefits

- Low profile, swivel head with lightweight handle enables easier cleaning
- The tethered clips allow for replacement of wipers easily and frequently adhering to strict cleaning protocols
- Compatible with any 9" x 9" or 12" x 12" cleanroom wipers
- Loading multiple wipers streamlines the mopping process
- Conforms to surfaces with its polyester pad
- Gets into hard-to-reach areas with its low profile, swivel head

Sterile Products

- Gamma irradiated to a Sterility Assurance Level of 10^{-6} according to AAMI Guidelines
- Certificates of Compliance, Analysis and Irradiation available at www.texwipe.com/certifications
- Sterile Validation Documentation available upon request
