Description

Texwipe's Sterile Cotton Swabs are constructed from 100% USP-grade cotton. Texwipe's Sterile Polyester Swabs are constructed from 100% USP-grade spun polyester. The swabs are bonded securely to a wooden or polystyrene shaft by an aqueous-based adhesive. All swabs are made to exacting and consistent tolerances using high-precision automated processes.

The easy-to-open, individually wrapped swabs ensure sterility at point-of-use. The swabs are visible through clear packaging which also offers visibility of seal integrity.

Features & Benefits

- Gamma irradiated to a Sterility Assurance Level of 10^{-6} in accordance with ANSI/AAMI/ISO 11137
- Lot code and expiration date clearly marked on each package and included in bar code for inventory control
- Certificates of Irradiation and Compliance attached to each case confirm irradiation dose met specifications
- Pre-sterilized swabs eliminate repackaging, documentation and validation of autoclaved swabs
- Packaging labeled for global use

Applications

- Diagnostic sampling
- Environmental monitoring
- Cleaning with solvents such as IPA

Industries

- Pharmaceuticals
- Biologics
- Medical Device
- Microbiological Laboratories
- Diagnostic Testing Laboratories
